A diagram of a 26-key numeric keypad layout. The keypad is rectangular with rounded corners and is divided into two main sections. The left section contains four keys labeled 1, 2, 3, and 4. The right section contains 22 keys arranged in two rows: the top row has keys 5 through 15, and the bottom row has keys 16 through 26. The keys are numbered sequentially from left to right, top to bottom.

A diagram of a 6-pin connector, likely for a vehicle's lighting system. The connector has a rectangular body with a tab at the top and a latch at the bottom. The pins are numbered 1 through 6 from left to right.

The diagram illustrates a 128-bit bus architecture. It features a central 128-bit data bus, a 128-bit address bus, and a 128-bit control bus. The data bus is connected to a 128-bit data register, the address bus to a 128-bit address register, and the control bus to a 128-bit control register. The registers are connected to a 128-bit data bus, a 128-bit address bus, and a 128-bit control bus. The data bus is connected to a 128-bit data register, the address bus to a 128-bit address register, and the control bus to a 128-bit control register. The registers are connected to a 128-bit data bus, a 128-bit address bus, and a 128-bit control bus.

Wiring diagram for the 2008-2010 production of the 2008 Ford Focus, showing the electrical system for the 2008-2010 production. The diagram includes a battery (BAT) connected to a 10A DOME fuse, which then branches into several circuits. The main power distribution is shown at the top with terminals ILE, DCTY, PCTY, RCTY, and LCTY. The ILE circuit (pink) includes a 2K fuse, a 2B fuse, and a 2S fuse. The DCTY circuit (orange) includes a 2C fuse, a 4M fuse, a 4J fuse, a 4A fuse, and a 4P fuse. The PCTY circuit (white) includes a 2A fuse. The RCTY circuit (green) includes a 2E fuse, a 4Q fuse, and a 4A fuse. The LCTY circuit (blue) includes a 8A fuse. The diagram also shows a 'Room Lamp (Center)' with a 'DOOR' switch and a 'DOOR' switch. The bottom section shows four door courtesy switches: M1(A), (B) (Front RH), L3(A), (B) (Front LH), M3(A), (B) (Rear RH), and L5(A), (B) (Rear LH). The legend at the bottom explains the color coding and production variations for the wiring.
